

ANSWER SHEETS

Tractor knowledge with technical terms

TURBOMATIK FARMER 303LS

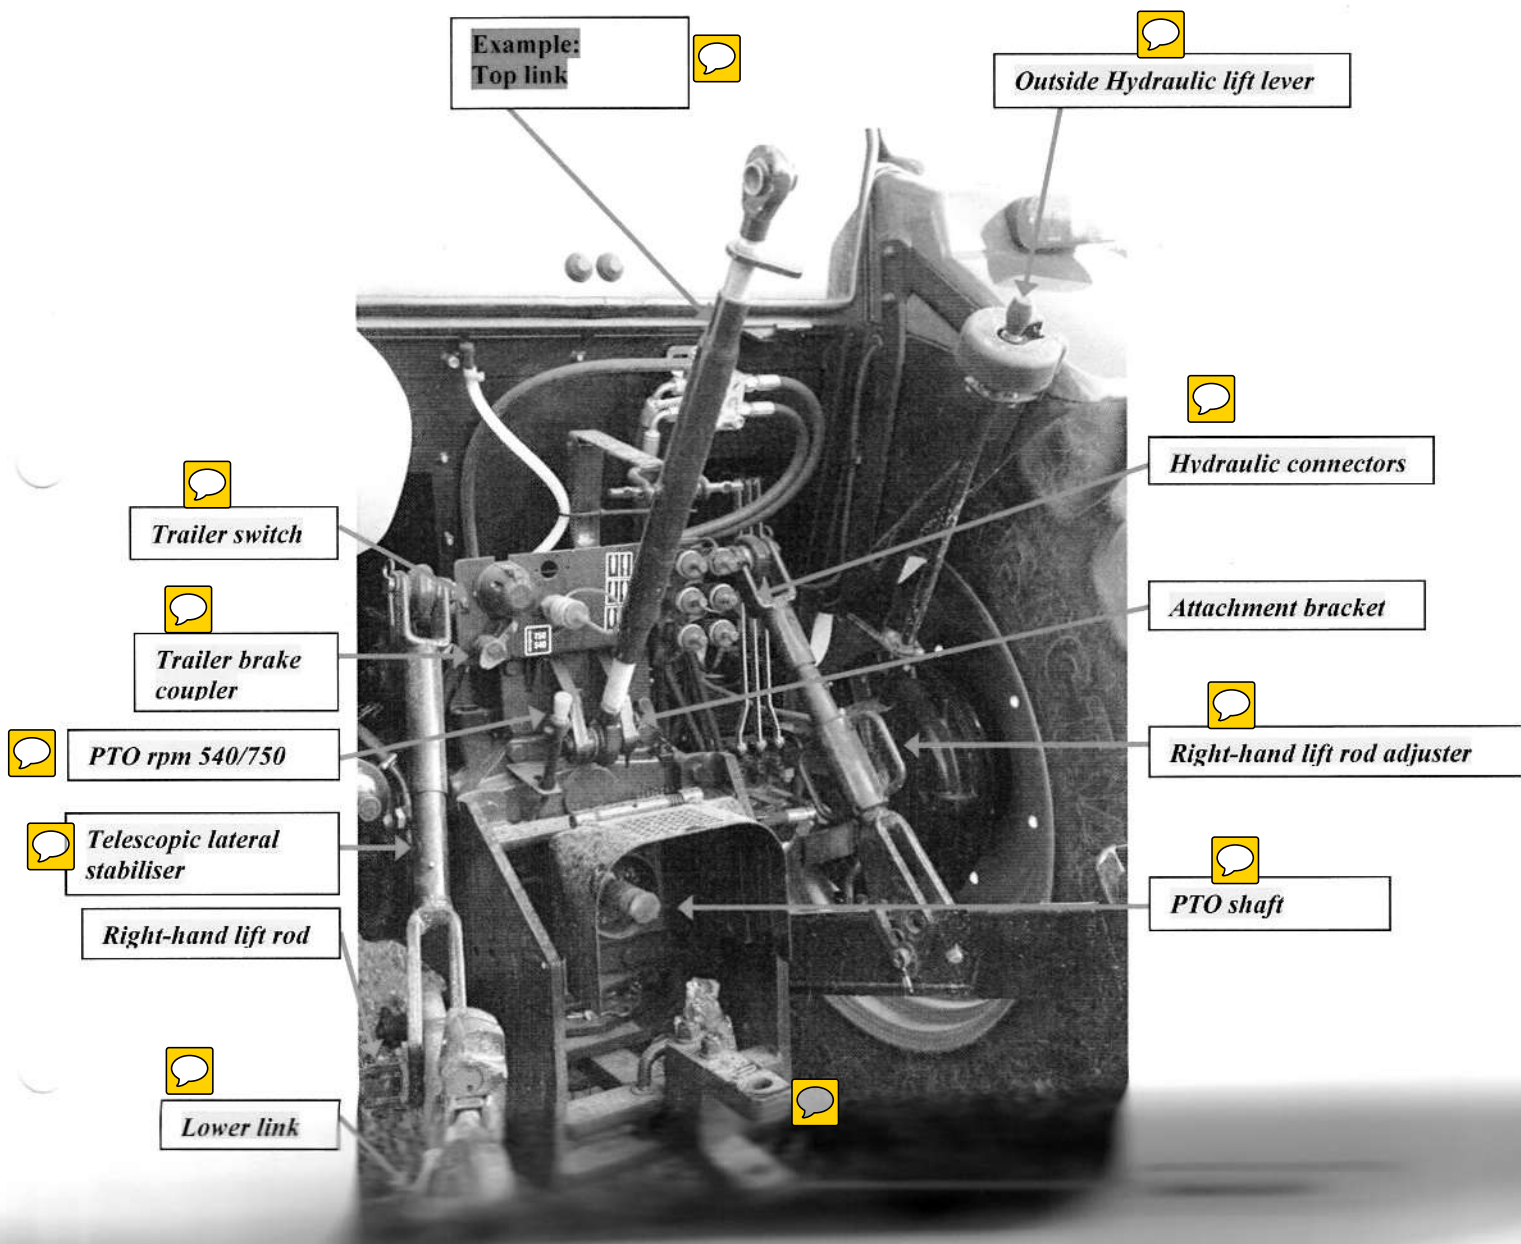

ANSWER SHEETS

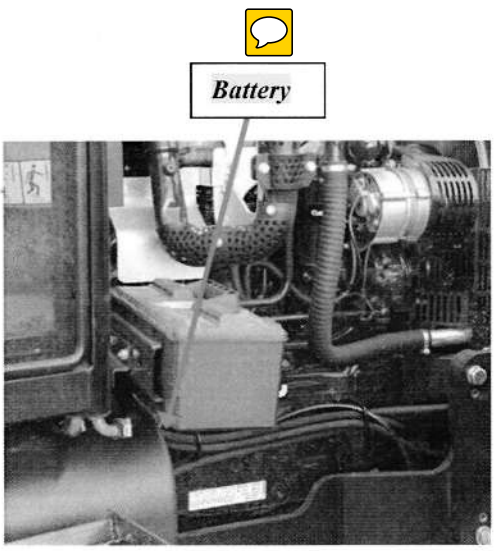

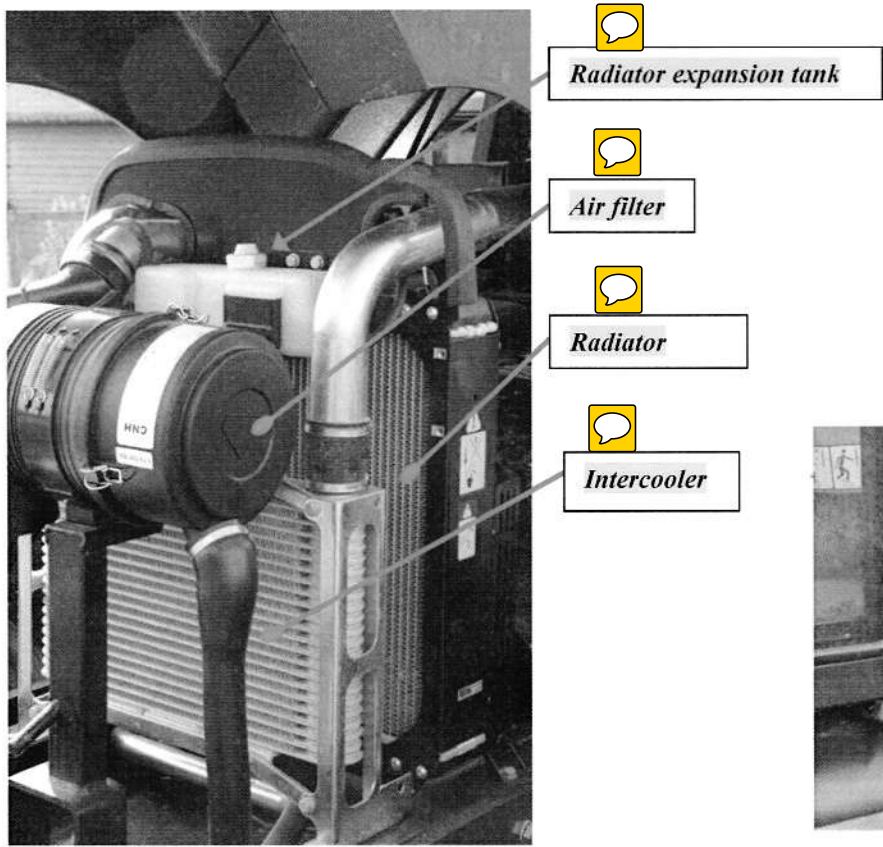

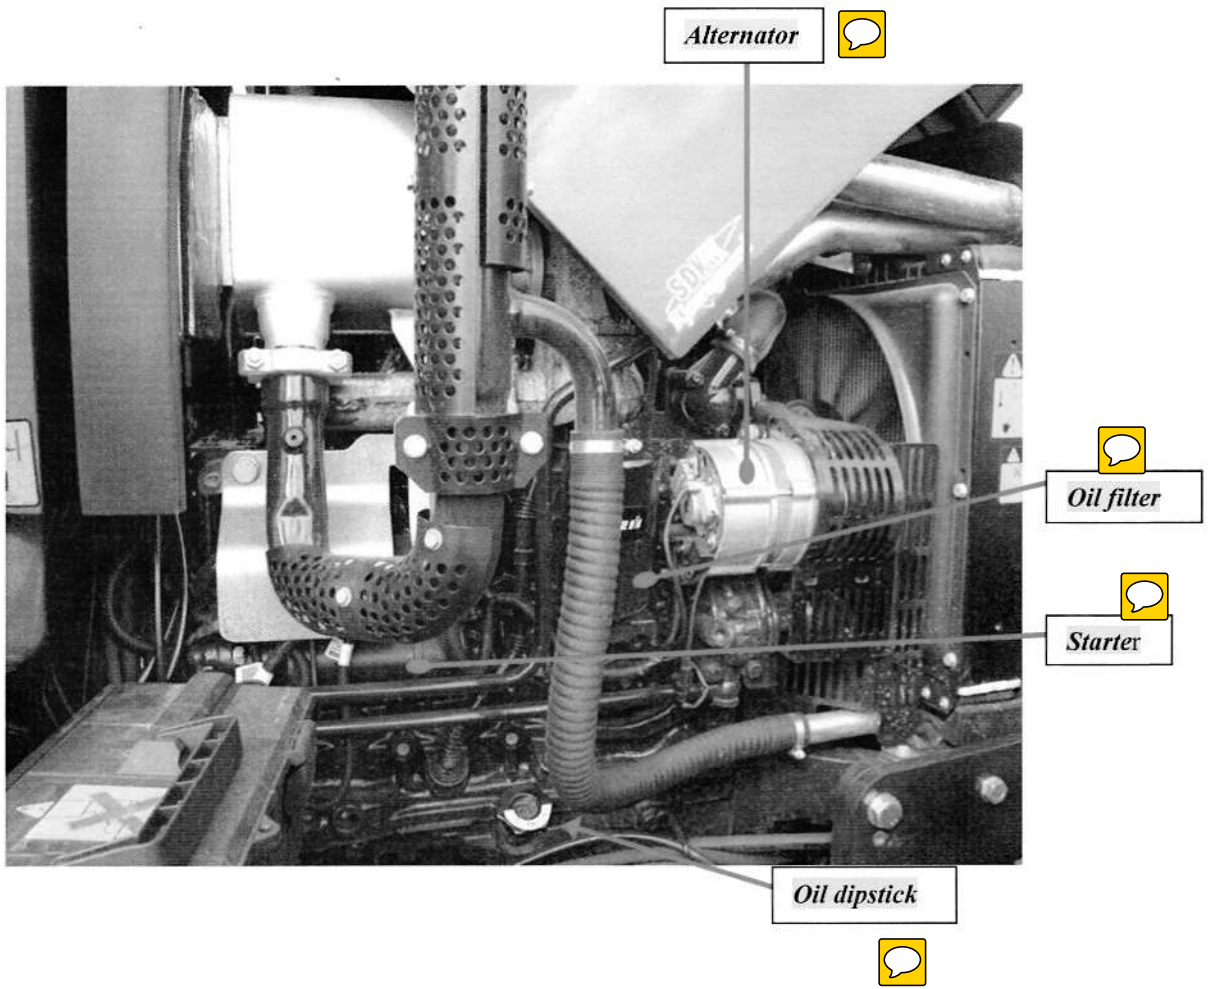

Tractor knowledge – 4 lessons

Name:

- Based on a Fendt 303 and CASE JX 90, locate the tractor / engine parts below and then "place" them on the images. Place the parts on as many pictures as possible. The same part can/must be placed on several of the images. See the example of the first picture. Help materials: Instruction books and the internet
- Finally, perform a brief start-up of the two tractors, and make a control of fuel level, level of engine oil and level of cooling fluid. Show off the arrows on the pictures, where you have made your reply off the engine parts
- A complete consultation on the subject can be expected.

ANSWER SHEETS

ANSWER SHEETS

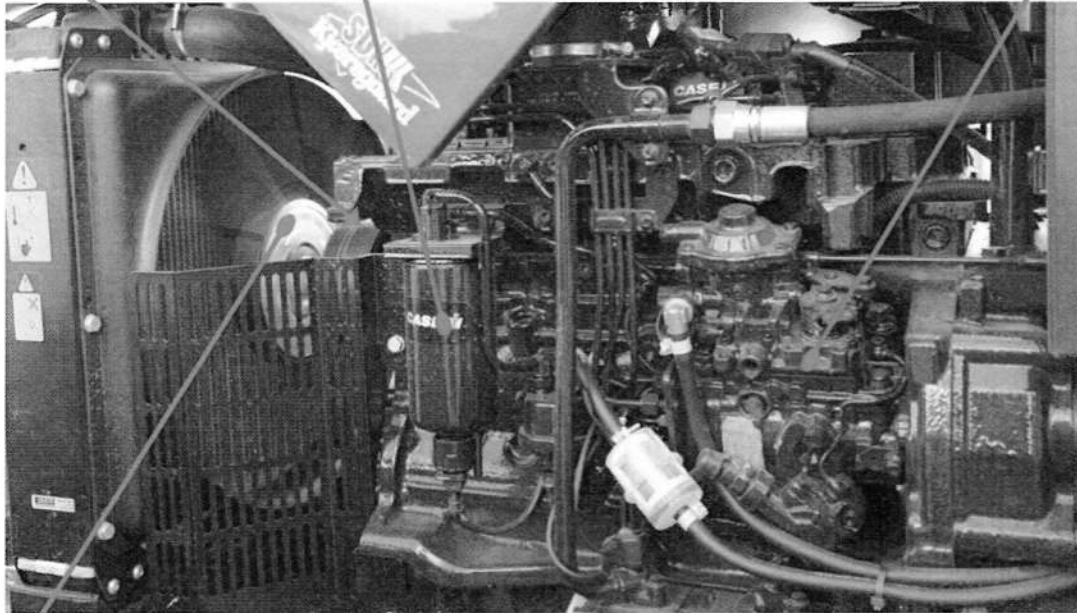

Vee-belts

Fuel filter

Injection pumpe

Viscous fan

Diesel fuel tank

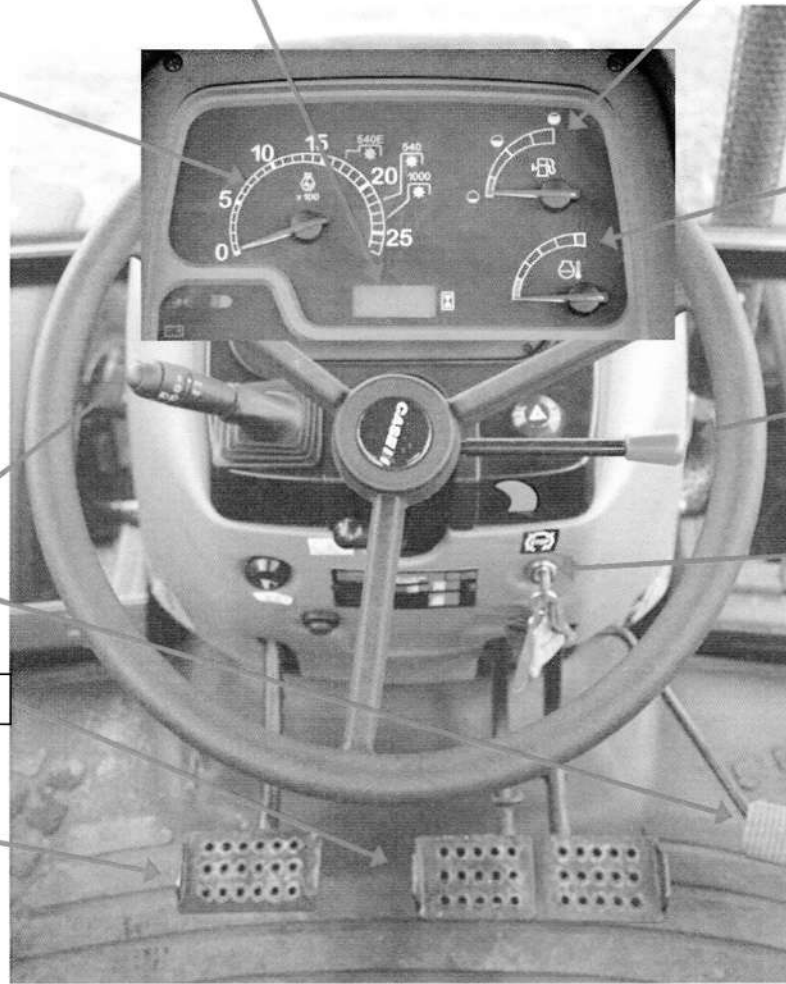

Hydraulic pumpe

Hydraulic filter

ANSWER SHEETS

Tractor hours recorded

Fuel gauge

Engine speed (rpm)

Temperatur gauge

Turn indicater

Hand throttle

Fod-speeder

Ignition key

Individual brake pedals

Clutch

Differential lock

Gear range lever

Main gear lever

PTO power tage-off switch

Shuttle lever

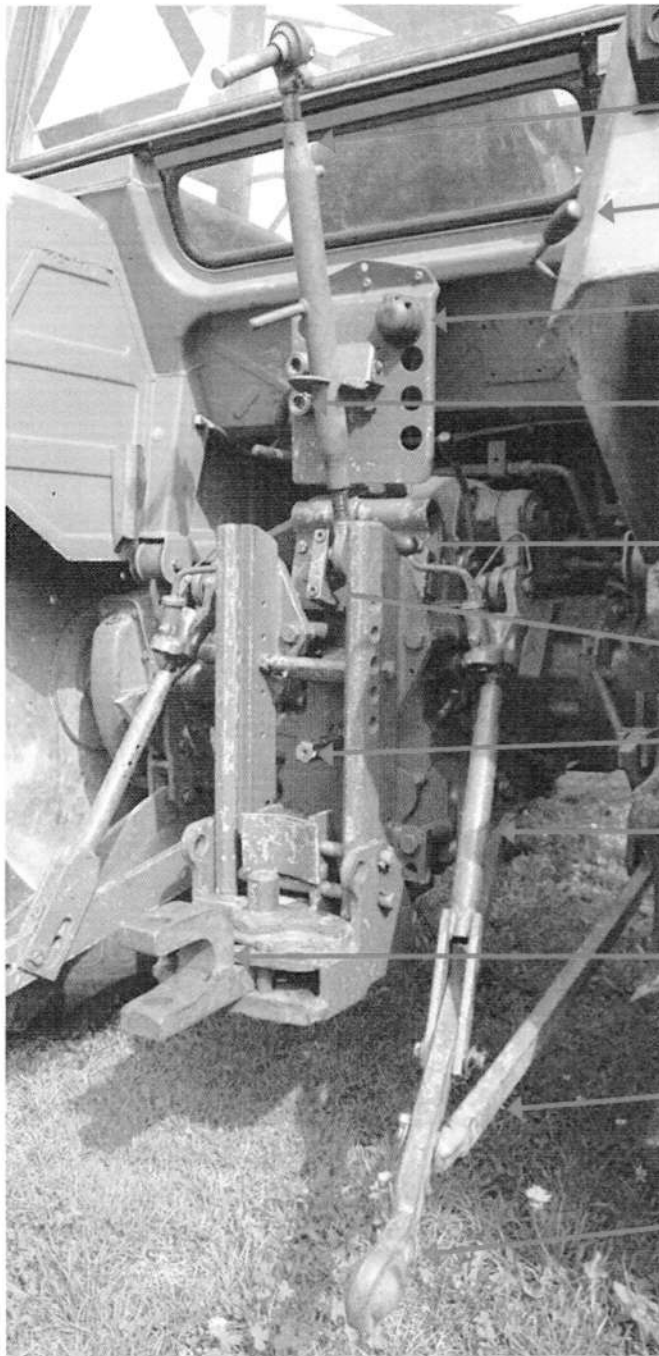

Parking brake

Hydraulic lift lever

Valve Control
levers for hydraulic
system

ANSWER SHEETS

Top link

Outside Hydraulic lift lever

Trailer Switch

Hydraulic connectors

Right-hand lift rod adjuster

Top link attachment bracket

PTO shaft

Lift rod

Drawbar (fork)

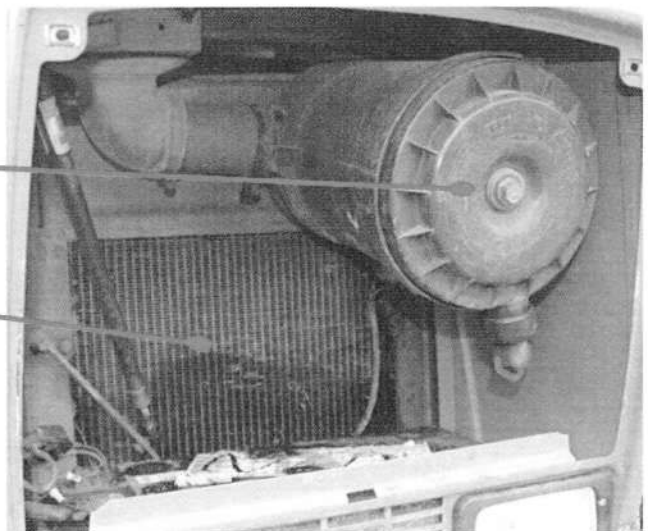

slingerstop

Lift arm

Air filter

Radiator

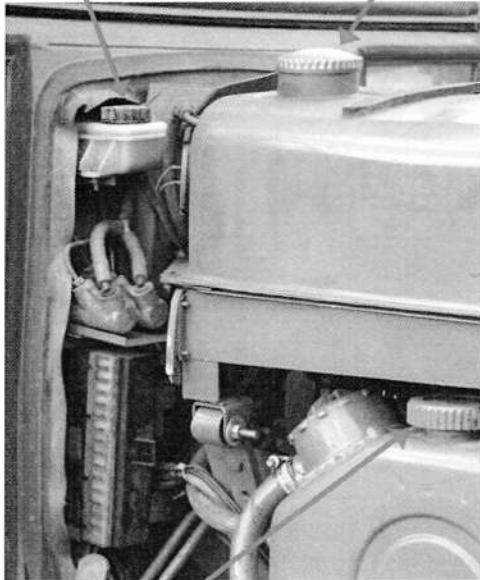

ANSWER SHEETS

Brake fluid tank

Diesel tank

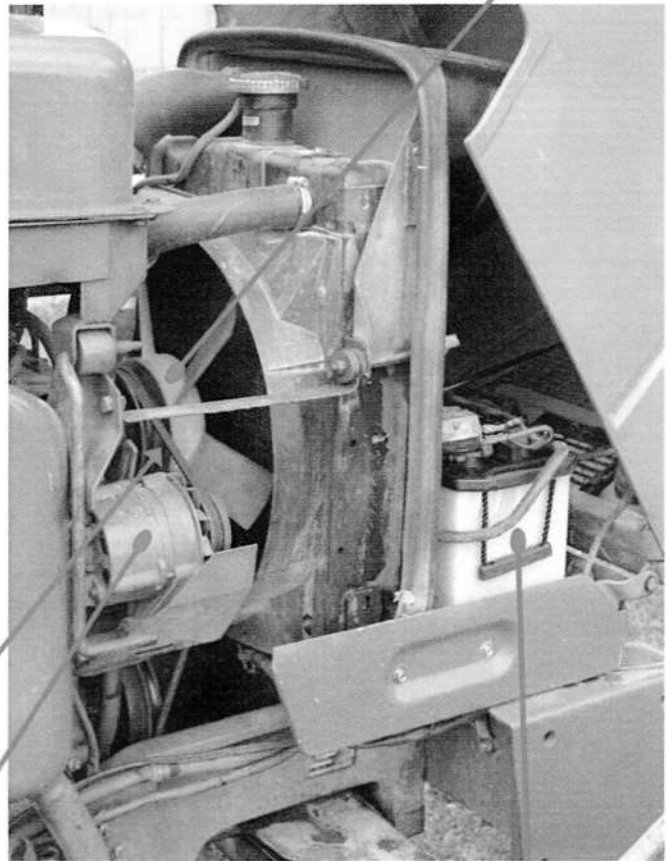

Hydraulic tank

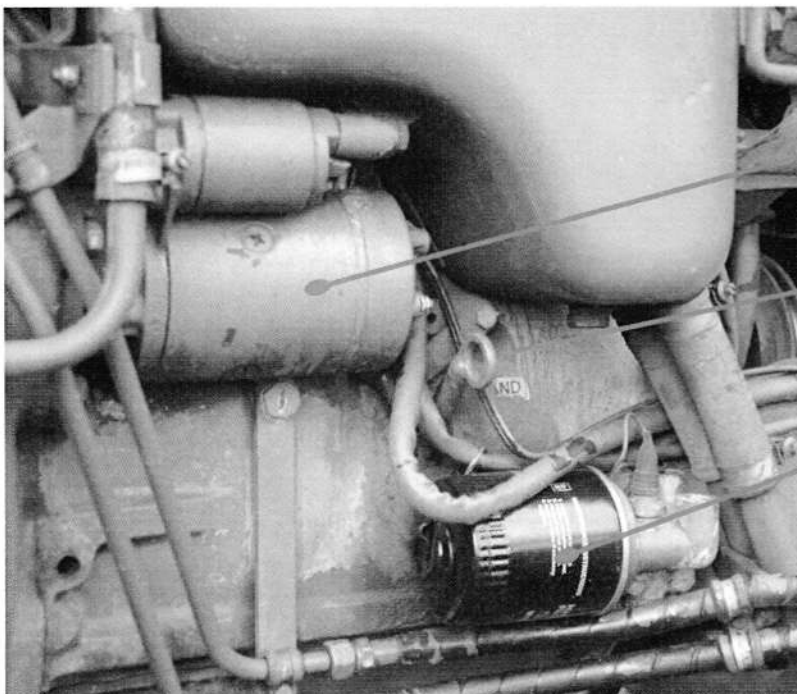

Vee-belts

Alternator

Viscous fan

Battery

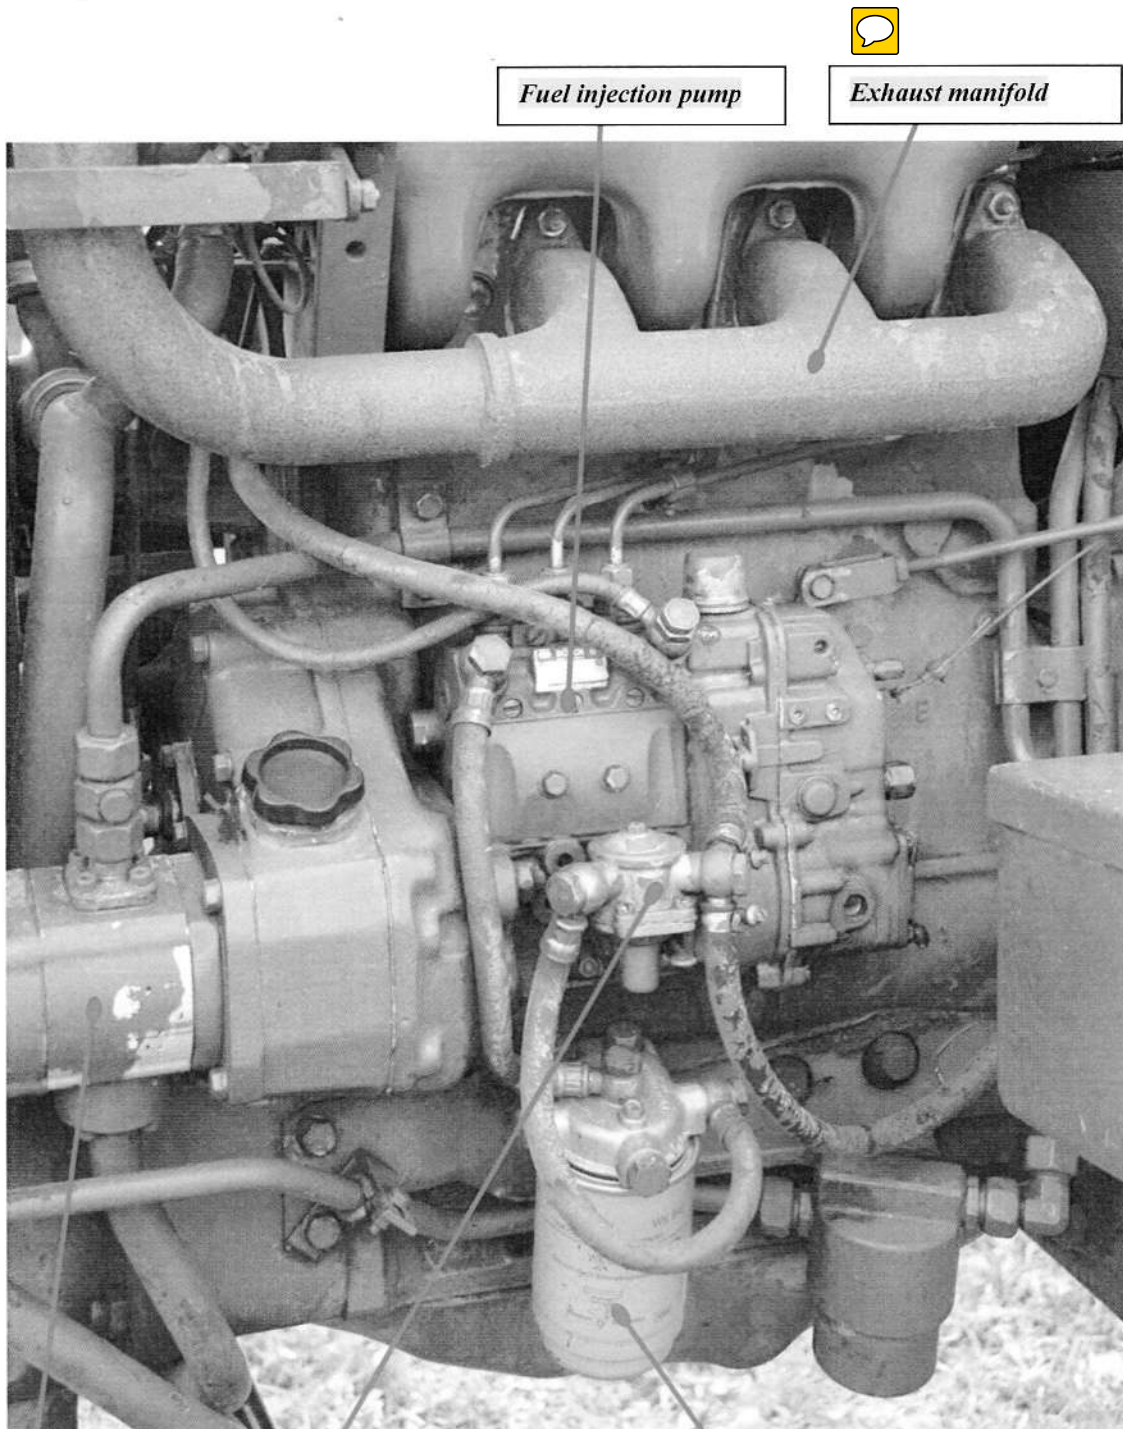

Starter motor

Oil dipstick

Engine oil filter

ANSWER SHEETS

Fuel injection pump

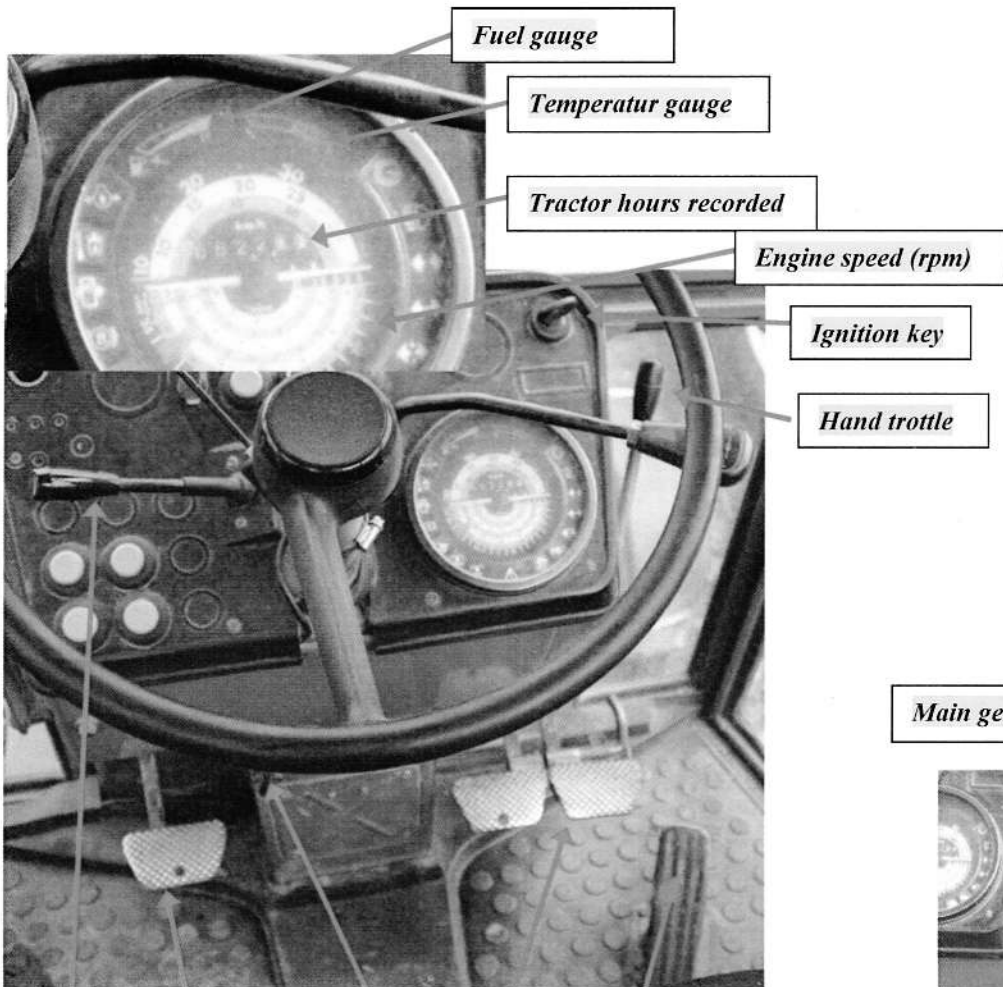

Exhaust manifold

Hydraulic pump

Hand prime pump

Fuel filter

ANSWER SHEETS

Fuel gauge

Temperatur gauge

Tractor hours recorded

Engine speed (rpm)

Ignition key

Hand throttle

Turn indicater

Clutch

Stop/pull

Brakes

Fod-speeder

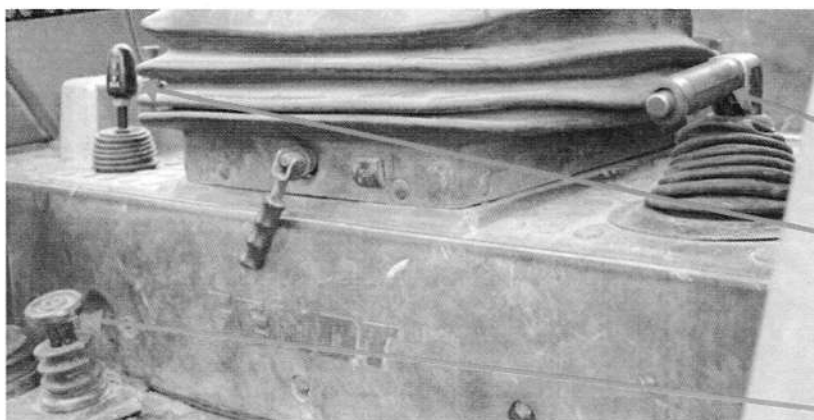

Main gear lever

Gear range lever

Hydraulic lift lever

Valve controls levers
for hydraulic system

Parking brake

PTO rpm 540/750/1000

Differential lock

SPECIAL TERMS – SPECIÁLIS SZAKKIFEJEZÉSEK

alternator I generátor
oil filter I olajszűrő
starter I indítómotor
oil dipstick I nívópálca
radiator expansion tank I tágulási tartály
air filter I levegőszűrő
radiator I hűtő
intercooler turbó I utáni léghűtő
battery I akkumulátor
outside Hydraulic lift lever külső I hidraulika kar (működtető kar)
hydraulic connectors I hidraulikus csatlakozók
right-hand lift rod adjuster I jobb oldali függesztő kar rúdja (függesztő rúd)
PTO shaft TLT I teljesítmény leadó tengely
drawbar I alsó vonófej
lower link I alsó függesztő kar (alsó csatlakoztatási pont)
telescopic lateral stabiliser I függesztő orsó (teleszkópos oldalsó stabilizátor)
PTO rpm 540/750 I teljesítmény leadó tengelykapcsoló (540/750 fordulat)
trailer brake coupler I pótkocsi fék csatlakozó (hidraulikus)
trailer switch I pótkocsi elektromos csatlakozó
vee-belts I ékszíj (V alakú)
fuel filter I üzemanyagszűrő
injection pompe I adagoló szivattyú (befecskendező)
viscous fan I ventillátor (viszkóz kapcsolós)
diesel fuel tank I dízel tüzelőanyag tartály
hydraulic pompe I hidraulika szivattyú
hydraulic filter I hidraulika szűrő
